# Sign the Petition

_____,

**Be a Champion for New York's Students!** All students deserve a high quality education. Our public schools need more resources in order to fully support the academic, social and emotional needs of students.

**We demand the $4 billion in Foundation Aid owed to New York's public school students to:**
- Reduce class sizes and increase extra curricula activities like art, music & sports
- Improve supports for English language learners & students with disabilities
- Implement culturally responsive education & implicit bias training
